DEIRDRE DYSON
Hover rug

Curves and circles were banned by artist and designer Deirdre Dyson when she set herself the task of creating a collection of made-to-measure Tibetan wool and silk rugs based on angles. In Hover, the bold triangles appear to be suspended above the pink. deirdredyson.com

SIEBENSEE
Shell collection

A new solid teak-framed dining chair and armchair have been added to Siebensee's customisable Shell collection. Ideal for entertaining al fresco, the chairs can be made with a veneer or lacquer seat shell, and fabric or leather. siebensee.com

OFFICINE GULLO
Cocktail Bar Cart

Part of Officine Gullo's new bar and lounge collection, this 24kt gold-edged cart adds a touch of glamour to cocktail hour. It has two ice sections and a shaker compartment, as well as space for condiments, utensils, bottles and glasses. Plus, of course, it's on wheels, meaning the bar works just as well for nightcaps under the stars. officinegullo.com
